

TREATTAROME™ “侍利” 香料
NATURAL AROMA DISTILLATES 天然香料提取物
FTNF (FROM THE NAMED FOOD)

The Treattaromes™ are a rang of entirely natural distillates, which are produced using a short duration, low temperature distillation process. This method of distillation maximises flavour entrapment, thus producing a distillate whose character is entirely of the fresh food.

"侍利"香料是指在特殊範圍的全部天然提取物，生產採用的是一種短時間低溫的蒸餾方法，能最大限度保持食品的原味及原來特性。
